

# OTH TechBuddies

B.Sc. International Mechanical Engineering  
B.Sc. International Computer Science  
M.Sc. Electrical and Microsystems Engineering

## What?

---

This semester students in their 1st semester (mentees) are accompanied by more experienced students from higher semesters (mentors) to benefit from their experiences. Regular meetings offer the possibility to **answer questions, exchange knowledge and meet new people.**

## Becoming a Mentor

---

You are a student in the 2nd semester or higher? Then you have the chance to become a mentor and benefit from:

- Mentor trainings, Improved professional communication and social skills
- Meeting new people and expanding your network
- Possibly a certificate, confirming acquisition of soft skills for job applications

## When?

---

Mentors will be introduced to mentoring techniques in the very beginning of the semester. In addition, there will be meetings with all mentors and mentees to connect with each other during the semester.

### Mentor-Mentee Meetings

Mentors plan a minimum of two in person meetings with their mentees to get to know each other better and provide an opportunity to exchange experiences.

## Registration

---

You can find the link for registration [here](#).
